LGBTI inclusion: Achievements, challenges, and the way forward

November 4, 2020
2:45 PM - 4:00 PM

Diversity Including CSOs in political processes

Description

The session, with OECD and All Out, will provide unique insights on achievements, remaining challenges and the way forward to ensure equal treatment of LGBTI people.

The OECD will present its latest report “Over the Rainbow? The Road to LGBTI Inclusion” that provides a comprehensive overview of the extent to which laws protect LGBTI people against discrimination and violence in OECD countries, as well as an analysis of the broader policies that should be implemented to strengthen the inclusion of LGBTI people. The OECD will discuss how CSOs can use this report to their benefit.

All Out will present case studies showing how CSOs can effectively promote and support the human rights of LGBTI people in countries where they are threatened, including taking concrete actions on the so-called “LGBT Free Zones” in Poland.
